[Computer Science]

[Software Development| [Web Development] | [IT Support]
[Database Management] | [Robotics]

[As a highly skilled and motivated computer science professional, I am committed to delivering accurate and efficient software solutions. I have strong attention to detail and a proven ability to work effectively under tight deadlines. I am passionate about contributing to innovative projects and advancing technology through continuous learning and problem-solving. Additionally, I am a quick learner with an open mind, able to collaborate effectively with people from diverse backgrounds and perspectives.]

WORK EXPERIENCE (Projects & Activities)

- **Hackathons & Coding Competitions:**
  Actively participated in various hackathons and coding contests, gaining experience in problem-solving under pressure and teamwork.
- **Firefighter Robotics Project:**
  Designed and developed a robotic system to support firefighting operations, featuring sensor-based fire detection and autonomous navigation capabilities.
- **Automated Attendance System:**
  Built a biometric-based attendance tracking system for college use, offering real-time reporting and improved accuracy.
- **Hall Reservation System:**
  Created an online platform for scheduling and managing college hall reservations, with an intuitive interface and automated conflict resolution.
- **Mobile Applications (Volunteer Work):**
  Developed several mobile apps focused on real-world problem-solving, user-friendly interfaces, and practical features.
- **Robotics Instructor – Dada Narin Institute Summer Program:**
  Delivered a robotics course to children, introducing basic concepts of robotics, sensors, and programming through hands-on activities.
- ***Cashier System –*** Developed a POS (point-of-sale) system for a local business company in Duhok to streamline sales and manage transactions efficiently.

[Hariwan NGO] - *[Duhok], [Iraqi Kurdistan]*   [06/2022 – 09/2022]
[Human Resource and facilitator]

[Provided general computer support during daily operations and staff meetings.

Helped facilitate small activities when needed, maintaining a supportive and team-oriented environment.]

EDUCATION

[University of Duhok] - *[Duhok], [Iraqi Kurdistan]*

[Student in Computer Science]

[Also completed online courses including:

CS50x: Introduction to Computer Science (Harvard University - edX), learning foundational topics like algorithms, data structures, C, Python, SQL, HTML/CSS, and JavaScript

Completed the Google IT Support Professional Certificate gaining practical skills in troubleshooting, system administration, operating systems, hardware setup, and customer support.

Completed several **Udemy courses** focused on software development, web development, and IT support, enhancing hands-on experience in real-world projects]

PROFESSIONAL SKILLS

- Mastery of Microsoft Office (Word, Excel, PowerPoint) and Google Suite (Docs, Sheets, Slides).
- Comfortable working in both Microsoft Windows and Mac OS.
- Excellent communication skills with a focus on team-building and customer relations.
- Outstanding organizational, multitasking, and problem-solving abilities.
- Leadership, positive attitude, public speaking, openness to learn.
- Emailing and communication.
- Programming Languages: C#, Python, JavaScript, SQL, Java, PHP.
- Web Development: HTML, CSS, JavaScript, Node.js.
- Software Development: Full-stack development, API integration, database management.
- Design: UI/UX design, prototyping.

LANGUAGE COMPETENCIES

- Kurdish: native language Both accents.
- Arabic: good (speaking, reading, writing)
- English: very good (speaking, reading, writing) formal and informal
